**Intellicheck Mobilisa Aids Force Protection Inc. With Corporate Security Measures**

**Port Townsend, WA** – March 18, 2009: Intelli-check - Mobilisa, Inc. (NYSE Alternext US: IDN), a global leader in access control and wireless security systems, has been contracted by Force Protection, Inc. (NASDAQ: FRPT) to provide them with the Defense ID ® access control system. Defense ID is currently in use at over 70 secure facilities nationwide.

Utilizing Intellicheck Mobilisa's patented ID reading technology, Defense ID quickly scans various forms of IDs, such as Drivers Licenses, Military ID's or Passports, and instantly compares the data to over 100 "bad guy" lists.

Force Protection, Inc., headquartered near Charleston, South Carolina, is a leading manufacturer of ballistic and blast-protected vehicles, which have been used to support armed forces and security personnel in Iraq, Afghanistan, Kosovo and other hot spots around the globe.

"The important work being conducted by Force Protection is critical to our armed forces," said Dr. Nelson Ludlow, CEO of Intellicheck Mobilisa. "They are developing equipment vital to the US military and recognized the importance of protecting their staff and assets."

Mr. W. Thomas Hall, Security Director for Force Protection added "We were seeking a leading-edge credentialing system for our integrated, enterprise security system. When introduced to the speed, accuracy, and flexibility of the Sentry handheld device, along with its relatively seamless integration into our existing technology platform, we turned to Intellicheck Mobilisa's Defense ID system."

**About Intellicheck Mobilisa**

Intellicheck Mobilisa is a leading technology company, developing and marketing wireless technology and identity systems for various applications including: mobile and handheld wireless devices for the government, military and commercial markets. Products include the Defense ID system, an advanced ID card access control product currently protecting over 50 military and federal locations. ID-Check is a technology that instantly reads, analyzes, and verifies encoded data in magnetic stripes and barcodes on government-issue IDs from approximately 60 U.S. and Canadian jurisdictions to determine if the content and format are valid.

**About Force Protection**

Force Protection, Inc. is a leading American designer, developer and manufacturer of survivability solutions, predominantly blast and ballistic protected wheeled vehicles currently deployed by the U.S. military and its allies to support armed forces and security personnel in conflict zones. The Company's specialty vehicles, the Cougar, the Buffalo and the Cheetah, are designed specifically for reconnaissance and urban operations and to protect their occupants from landmines, hostile fire, and improvised explosive devices (IEDs, commonly referred to as roadside bombs). The Company also is the developer and manufacturer of ForceArmor™ an armor package providing superior protection against

explosively formed projectiles (EFPs) now available for a wide range of tactical-wheeled vehicles. The Company is one of the original developers and primary providers of vehicles for the U.S. military's Mine Resistant Ambush Protected, or MRAP, vehicle program. For more information on Force Protection and its vehicles, visit [www.forceprotection.net](http://www.forceprotection.net).
